Intellectual Property Agreement

All Project Participants: In order for the University to carry out its obligations, and as a condition of and in consideration of my participation in this extramurally sponsored research or other activity at the University of Wisconsin-Madison, I hereby agree to disclose promptly to the University any invention, novel variety of plant that is or may be protected under the Plant Variety Protection Act, computer software that is potentially patentable or to which the sponsor has rights under the agreement, or mask work made by me in whole or in part, whether solely or jointly with others during and in the course of such extramurally supported research or other activity. I further agree that I will comply with the provisions of any agreement between the University and the sponsor, and will cooperate in assuring that the sponsor's rights in intellectual property are fully protected. If an invention is funded in whole or in part by a federal agency or if the sponsored research agreement requires the University to grant rights in the invention to the sponsor, I agree that I will, if requested, assign rights to such invention to the University's designated patent and intellectual property management organization and will execute all papers necessary to file patent applications on the invention and to establish the federal government's or other sponsor's rights in the invention. I confirm that I am now under no obligation to any other person or extramural sponsor with respect to any rights in inventions, discoveries, or copyrightable material which are in conflict with the subject agreement or project proposal.

Principal Investigator: As the Principal Investigator of the extramurally sponsored project, I shall be responsible for assuring that all persons participating in the project, other than clerical and nontechnical, at the time of award or prior to commencing work on the project, sign a copy of this Agreement and become familiar with the terms and conditions in the Agreement between the extramural sponsor and the University pertinent to the project, including intellectual property provisions, and with the University's policies concerning sponsored research. To secure project staff signatures, Principal Investigators may use a copy of this document. Research and Sponsored Programs will assure that this Agreement is on file for the Principal Investigator. The Principal Investigator is responsible for maintaining a copy of this agreement reflecting project staff signatures.
